FINANCE AND TRADE.

THE HANKS were as dull as usual yesterdsy, and exchange, with some increase in the supply, continued at par buying on New York, selling at 1 premium; i discount buying on New Orleans, selling at par. The New York Herald of Monday reports the money market there as folicws: "The money market during the week has shown a tendency to lower rates of interest, capital still being abundant and lenders forced to accept whatever was offered. On stock collaterals call loans were made at 13 and 23 per cent., while goverument bond dealers were supplied at I and It per cent. The banks and trust companies are loaning at 3 to 4 per cent. Prime commercial paper is in good demand and the supply is light We quote sixty to ninety-day prime dry goods inread bills receivable at 3 334 per cent. Four months acceptances are 31 35, and good single names of four to six months 5@7 per cent. Grocery paper is in good r quest at 4@5 per cen. for four months notes. A similar condition of erse exists in London, where the bank rate is only 2 per cent. and the open market discounts are as low as 1 per cent.11 Gold New York quoted 111; and 112; here 111@1111. THE COTTON MARKET YE terday was more active, with a good demand; there was a better showing of cotton; most of the business done was early in the day, rain setting in in the afternoon. Holders who were in the market met the demand freely at current quotations, and there was a larger proportion of the bet-ter grades sold than her been usual of late. Telegrams were favorable, and New York quoted to higher. The New York Bulletin says that on Monday, "aside from the foreign account, there does not appear to have been any thing to influence the position except speculative manipulation, and a large number of the trade continue to hold aloof awaiting developments. Short notices appeared to be scarce and firmly held at about 11 27-32c." The Neshville Amertoan of Wednesday reports middling 101c; total receipt since September 1st, 51,125 bales; total (shipment, 51,328) bales; stock on hand, 795 bales. same time last year, 1121. OUR PRODUCE MARKET Was very fisyesterday. Dolhonde & Co.'s New Oreans circular, of August I, says Cuba has lately taken several thou-and barrela of flour there at \$6@6 50; Germany has also shipped some samples to test the market, and there is a disposition to purchase wheat in New Orleans for granding in Europe. It is noticeable that during the past eleven months the price of petroleum has doubled, owing to increase i demand and diminished supply, but it is still cheaper than any simiar article that can be substituted. Our exports are now very large, much more so than usual, European stocks having allen to a rather low point. The New York Tribune reports: "All accounts are favorable to a good crop throughout the wheat-growing sections of the west, and California has already secured the largest crop it has ever produced. Reports from all over Europe are to the same effectanticipating a full crop—while the new producing countries of Australia producing countries of Australia and Lodia come in with crops and Lodia come in with crops even larger than those of last year. All these facis point to the probability that Great Britain will be the only wheat importing country for the coming year, as she has practically been and choice superfine scarce and wanted;

cases, Biliousness,
Liver complaint, Dropsy, Tetler, Tamore and sait Rheum, Worms, Gout,
Reuralgi, as a Dinner Pill, and Puritying
the Blood, are the most congenial purgative
yet perfected. Their effects abundantly show
how much they excel all other Pills. They
are safe and pleasant to take, but powerful to
cure. They purge out the foul humors of the
blood; they stimulate the sluggish or disordered organ into action; and they impart
health and tone to the whole being. They
cure not only the every day complaints of
everybody, but formidable and dangerous diseases. Most skilful physicians, most eminent
clergymen, and our best citizens send certificates of cure performed and of great benefits
they have derived from these Pills. They are
the safest and best physic for ch laren, because
mild as well as effectual. Being sugar-coated,
they are easy to take; and being purely vegetable, they are ensirely harmiess. = eases, Biliousness, able, they are entirely harmless.
